MEXICAN CONSUL CUESTA DOUGLAS DARES SOME OF MEXICO'S SECRETS

Says Liorente and Sommerfeld Tried to Make Him Recruit Soldiers on American Territory—Declares That Plans Were Laid to Get Him Out of His Position as Special Secret Agent.

Mexican consul E. C. Liorente's recruiting operations extended to Douglas, according to the Douglas Dispatch of Feb. 23, which prints a full statement of Mexican consul Cuesta's declaration that he was working for the old Diaz regime at the time he was consul for the Madero government. The Mexican consul at Douglas says that he had a falling out with consul Liorente of El Paso and with Felix Sommerfeld because they importuned him to recruit men on the American side of the line for service in Mexico. C. D. Herbert, former special agent of the department of justice, also says that he was forced to resign because of his association with the Mexican consul in El Paso and Felix Sommerfeld. He says his reports to the United States department of justice were given out by the El Paso Mexican consul to the consuls along the border.

Cuesta's Statement.
The statement of Cuesta is followed by the following statement of the Dispatch regarding Liorente and Sommerfeld's activities:
"Consul Cuesta also discussed his falling out with consul Liorente, of El Paso, at the time of the arrival of Gen. Giuseppe Garibaldi in this city, in company with Felix Sommerfeld. Madero's personal representative in the United States, with headquarters in El Paso. Both Liorente and Sommerfeld importuned him, he declares, to recruit men on the American side of the line for the federal forces, then being mobilized in Agua Prieta under the command of Gen. Blanco and governor Gayon. Fear of being apprehended by

special agent Herbert in this act of violation of the neutrality laws, as had been Garibaldi, was responsible for his refusal to have anything to do with the recruiting, and resulted in the subsequent importuning of Liorente against him. He was more than pleased at the flight from El Paso of Liorente after federal warrants had been sworn out against him, for such acts as he would have had him (Cuesta) commit here."

Herbert's Charges.
Former special agent Herbert's statement as given in the Dispatch is:
"I had been harassed by the Mexican consuls at Douglas, El Paso, San Antonio and Laredo, Tex., and Felix Sommerfeld, until things got unbearable, and I could not stand for it any longer. All my confidential reports to the department of justice became the public property of the Mexican consul at El Paso and from there were given out to the various Mexican consuls located along the border. Cuesta was no exception, he himself having informed me that he secured all the information I turned in to my department. Not only did the Mexican consuls attempt to have me removed, but they were also assisted by agent in charge Thompson, of San Antonio, as well as United States officials in Arizona. Thompson himself informed me that United States attorney Morrison had requested him by letter to remove me from Douglas and substitute special agent R. L. Barnes or some other agent, who would cooperate with Mexican consul Cuesta in this city."

Tried to Tire U. S. Agent.
"In their efforts to have me removed

from here, they went to the limit of having the chief of their secret service in Douglas, Powell Roberts, make charges against me, and then importuned me to resign. There were several attempts to get me to resign. The matter was reported to Washington from where I was asked as to what I knew of the matter. I forwarded the letter to sheriff Wheeler without comment. His reply was that it was absolutely untrue, and that in the conversation which he had with Powell Roberts, Roberts then in the employ of the Mexican government asserted that agent in charge Thompson and L. E. Roma, of El Paso, at that time special agent for the department of justice, were both receiving compensation from the Mexican government for services rendered the Madero government."

SONORA IS FOR MADERO; TO FIGHT

Masarens Arrives in Arizona to Challenge Government of the State Under the New Regime.
Nogales, Ariz., Feb. 22.—Col. Emilio Kostelitzky, commander of the revolution in Sonora, arrived here today to challenge the government of the state under the new regime. He was met by a large number of people and is ready to fight any uprising of Maderistas in this state. He was formerly a lieutenant of Porfirio Diaz in this state.

Gov. Maytorena, of Sonora, has issued a proclamation declaring that Madero is the legal president and urging them to rebellion against the new president. The state legislature will meet in Hermosillo next week, however, and may vote to adopt the new government. "The state of Sonora is in a state of anarchy," declared the governor, "and I am prepared to back up my decision with arms." is the declaration of Yamael Padilla, secretary of state, who arrived today from Hermosillo.

Members of the state congress, which will be assembled in special session at Hermosillo Monday, are in thorough accord. Padilla insisted, with governor Maytorena, who issued a proclamation yesterday ordering the people of the state to adhere to Madero.

Manuel Masarens, a former rebel leader, Orozco and Salazar, arrived from Los Angeles today and declared that he was to be provisional governor of Sonora, succeeding Maytorena. He was accompanied by Adolfo Esau, who was Mexican consul at Los Angeles under Porfirio Diaz, who is to become Masarens's secretary of state.

ASHURST WOULD INTERVENE TO SAVE SOCIAL TURNER

Washington, D. C., Feb. 22.—On the strength of representations made in numerous telegrams received from the southwest, Senator Ashurst, of Arizona, today made an urgent appeal to the state department to intervene in Mexico to the extent of making an effort to prevent the execution of John Kenneth Turner, an American newspaper man, taken into custody by the Mexican government, charged with stirring up dissension and being an active partisan of Madero. The Turner case, who wrote "Barbarous Mexico" and is a socialist.

VASQUEZ COMES TO EL PASO TO STRAIGHTEN OUT TANGLE

Col. Juan N. Vasquez, commander of the Juarez garrison, was in El Paso Saturday morning. He held an impromptu reception in the lobby of the Sheldon and met the revolutionists who have been refugees on this side of the river. Col. Vasquez came to the American side to straighten out the tangle resulting from the arrest of several revolutionary sympathizers Friday afternoon in Juarez. He says it is all a grand mistake and should never have happened.

REBELS ARE AGAIN BURNING OUT BRIDGES

Rebels are burning bridges on the Mexico North Western railroad again. The morning report of the North Western office in El Paso showed that 17 bridges had been burned near Santa Sofia, 174 kilometers south of Juarez, on the El Paso division of the railroad. No details of the bridge burning operations were given, and it is not known under whose leadership the rebels are operating in the vicinity of Santa Sofia.

BARGAINS IN WINDOW NO. 3.

SENATE ARIZONA PRISON PROBE

(Continued from page 1.)

in the senate but in the house it brought on a lively debate.

"I desire to state that for many months the administration has been subjected to the most despicable and foundationless attacks upon its prison policy—attacks built upon falsehood and misrepresentation. The attacks have been largely from irresponsible parties, it has not been deemed dignified or necessary to combat them; but the time has arrived when, for the good of the service, reputation must be made of the uncalculated slanders heaped upon officers who are honest, energetic and endeavor to do their duty."

The members of the institutions committee are Barker, Kane, Craig, Jacobs and Maddock, all known to be unfriendly to governor Hunt and prison reform.

The original committee appointed in the senate to take charge of the Florence protests was composed of Hechtman, C. B. Wood, Chase, Lovin and Hughes. Yesterday senator Hechtman stated that his duties as a member of the code revision committee would make it impossible for him to attend to the duties of the committee. Senator Kinney was appointed in his place.

To Elevate Justices of Peace.
Three bills were introduced in the house yesterday, No. 43, by Jacobs, is of importance. It calls for an emergency clause and will restore to justices of the peace the jurisdiction and power they had before Arizona became a state.

Harry Johnson introduced No. 45, which is to prohibit the attorney general from accepting any salary or raises the attorney general's salary from \$2500 to \$3000 a year.

Aid For Schools.
Last year the legislature passed a bill to allow any high school or normal school \$2500 for agricultural and mining purposes, after certain conditions had been complied with. There were defects in the measure which made it imperative. Yesterday representative Jones introduced the bill with the defects remedied.

Representative Kerr introduced a resolution inviting D. C. Collier, director general of the San Diego exposition, to address the legislature in both the house and senate March 2. It was adopted in both the house and senate. The resolution was introduced by Wesell.

To Register Women.
The committee on suffrage and elections recommended the passage of senator Davis' bill for the registration of women, with a slight amendment.

The house bill providing that the adjutant general may spend money for armories in cities where half the cost is paid by the citizens, was taken from the calendar of the committee of the whole and referred to the appropriations committee. This is only a temporary setback in the progress of the bill, which seems certain of passage.

Upon the recommendation of the judiciary committee, the senate is to require that any appointive officer shall be a resident of the county or precinct in which he serves was postponed. Yesterday the senate committee made by the same committee on Irvine's amendment to the game law and Kerr's bill to punish the circulators of libelous advertisements. Kerr's bill by the way, will practically prohibit the sale of patent medicines in Arizona.

Beltran's forces would join him. Beltran, who is under a flag of truce, were permitted to enter Hermosillo and Diaz was seized by the federal commander and placed in prison.

Gen. Angeles Will Be Charged.
Gen. Angeles will be tried for failure to obey an order of Gen. Huerta to report to the palace with his forces on the last day of the recent fighting in the state capital. When the federal forces entered the city, Gen. Angeles was in the same room in the palace with ex-president Madero.

Senora Madero, wife of the ex-president, and senora Suarez, wife of the vice-president, were for the first time since their husbands were arrested, were permitted to visit them in the palace. The visits lasted one hour and were private. When the women left the palace, they appeared to be deeply apprehensive as to the fate of their husbands.

Old Rime Controversy.
It is evident that the men of the old regime are again in ascendancy, but the support of a great number of those who attained prominence during the Madero rule and also, during the continued warfare, are ready to support anyone, even if it be the old conservative.

Friday was a gala day for president Huerta and the cabinet. While Thursday was a day of organization, Friday was a day of celebration and the inauguration of multitudinous affairs of government.

Men who had been political prisoners until Thursday were released and seeking an audience, all wandering during the period of waiting, about the ancient salons looking for changes. They found one notable thing was the absence on the walls of the portraits of Porfirio Diaz. Already steps were taken to remove the pictures from the museum had been taken in hand. Felix Diaz was among the callers and interested spectators at the official reception.

Gen. Pascual Orozco, Jr., is expected to arrive soon and espouse the cause of the administration.

In the capital Felix Diaz continues popular. The playing of the "Felix Diaz March" in the restaurants still is the signal for applause.

Huerta's Policy of Repression.
Provisional president Huerta's peace program as outlined to the newspaper men, if carried out, means merciless repression, if repression should be necessary. In effect, it is promised to use the iron hand policy employed so effectively by Porfirio Diaz when he was president. It is regarded by most people as certain to be needed for the skeptical express doubt as to its efficacy at least for a long time.

The killing of Gustavo Madero practically assures the cooperation of governor Villareal, Gustavo's father-in-law, of the adjoining state of Nuevo Leon in the movement against the new government.

Madero Held Incommunicado.
Friday's probably will be the last interview senora Madero and senora Suarez will have for some time with their husbands, as after their departure, strict orders to keep all prisoners incommunicado were issued. The two women attempted to see president Huerta but he was too busy to receive them. An appointment was made for today.

That either representative Madero or ex-vice-president Suarez will be executed is not probable, but a deputy will make an earnest effort to fix upon Madero responsibility for the disappearance from the national treasury of much money.

Provisional government group is de-

port was made on the measure in its amended form.

Legislative Meeting Dates.
The legislature is not to meet the first Tuesday in February of each odd numbered year instead of the second Monday. Bradner's bill to provide for the submission of an amendment to the constitution making such provision was indefinitely postponed.

The state institutions committee criticized the report of the superintendent of the pioneer home, declaring that it was not sufficiently in detail. The report was sent to the committee on appropriations.

The report of the board of dental examiners was received from the governor and referred to the state institutions committee.

The Senate.
Brooks' house bill to provide for the payment of costs of suits brought in the federal courts against the state and state officers, was passed in the senate under a suspension of the rules. There was no division. Senate bill No. 27 providing for the same thing, was disposed of by the indefinite postponement route.

Senate bill No. 6, by Hughes, which has caused fighting nearly two weeks, was placed on final passage and carried. Only Harrison and Wesell voted against it. This is the bill to make it possible to send to the Carnegie desert laboratory, at Tucson, the 240 acres it now occupies, on condition that it be used only for educational purposes. A similar deed can be made to any institution chartered by the federal government.

Prisoners' Employment.
Senator Hughes moved that the vote on his bill providing for the employment of prisoners in the state be reconsidered and the measure recalled from the house. It needed several amendments, he said. It was brought out, however, that more than two days had elapsed since the passage of the bill, therefore the time for reconsideration had passed.

C. B. Wood's county fair bill was placed on the calendar for third reading Monday.

Senator Hughes introduced an amendment to the law under which the payment of mileage and fees to witnesses operates. It is to extend the jurisdiction of that official to all cities and towns, whether incorporated or not, over 600 population.

House bill No. 17, providing for the payment of mileage and fees to witnesses in criminal cases, met with swift death in the senate.

The Hunt county bill and Jacobson's measure to prevent swine and fowls running at large, both passed by the house, went to the county affairs committee.

Petitions Received.
A communication was received from the Blue miners' union, urging legislation under which the 50,000 acres of land set aside by the enabling act for the Blue miners, might be selected at once.

The same committee received a petition from 12 citizens of the Yuma valley, urging the early sale of school lands.

Senator Hechtman said that the penal section of the code would be ready for submission to the senate Tuesday, provided a meeting of the revision committee could be held in the meantime. A meeting was arranged for Sunday morning.

A joint meeting of the two appropriations committee, to hear the requests of Dr. A. H. Wilde, president of the state university, was announced for this morning.

Today being a holiday, both houses adjourned till Monday.

terminated to get through the chamber a resolution demanding an accounting in the treasury alleging that it will show that ex-president Madero in conjunction with Ernesto Madero, the former minister of finance, and possibly Gustavo Madero, misappropriated funds.

Huerta Promises Peace.
President Huerta replying to a brief address made by Mr. Wilson, the American ambassador, the dean of the corps, said an effort would be made to restore order soon as possible. He expressed appreciation for the attitude of foreign governments toward the new administration.

The senate voted Friday to suspend action on the hundred million pesos loan.

Zapata May Quit Fighting.
Part of the Zapatistas have joined forces with the new administration. News has been received at the National palace that Julian Pacheco, leader of the federal army at Cuatla, state of Morelos, who was one of the first to declare for Felix Diaz, has suc-

ceeded in winning over many of Zapata's followers. Pacheco will use this force with his own, which is now moving on Cuernavaca, to occupy it in the name of the Huerta government.

Emiliano Zapata himself sent word to the capital that he was satisfied with the new regime but he requested the removal of governor Patricio Leyva, of Morelos.

To Subjugate Aguascalientes Governor.
The government has dispatched forces to Aguascalientes, where governor Fuentes is hostile to the new administration, although he has taken no active steps toward a counter revolution.

REBELS BURNING RAILWAY BRIDGES

(Continued from page 1.)

ing the army were posted on the principal streets, only to be torn down by patriots and kindred troubles. The army with treachery to the country, embodying an appeal against militarism. The volunteer troops are charged by the regulars with the authority of the posters, increasing the already great suffering between the two factions.

More Bridges Burned.
Fourteen bridges on the Mexico North Western railway were burned Friday by rebels between the lumbering towns of Pomeroy and Madera. The Canadian-English owned road had been nearly reconstructed and ready for operation after a shut down of many weeks.

Central Is Operating.
The Mexican Central railway remains open from Juarez to Mexico City. Only passenger trains are in operation, however, as an indefinite embargo on freight exists at this port. Shortage of train crews is given as the reason.

Military trains continue to be run on the Central in spite of the peace talk. A troop train left Juarez Saturday morning ahead of the regular passenger train.

A freight train of the North Western railroad went down over the Central line to bring out lumber for the Pen-sion plant.

ENGLAND WILL GIVE FINANCIAL AID TO FAMILIES OF EXPLORERS

London, Eng., Feb. 22.—The lord mayor of London has announced today that premier Asquith has informed him that the government will propose to parliament that funds from the national treasury be appropriated for the dependents of the late Capt. Scott and his four companions, who died in the Antarctic regions. The amount the premier said would be sufficient to secure to the dependents the pecuniary position they would have held had not the disaster to the explorers occurred.

VIEWS GIVEN BY AN EX-COUNTY JUDGE

Prominent Dallas Citizen Has Found Plant Juice Highly Effective.

The following statement is made by Judge E. L. Walker, who was county judge at Breckinridge, Stevens county. The judge is 61 years old and has lived in Texas 54 years. He has found Plant Juice most satisfactory, as shown by this statement:
"I have long suffered with rheumatism, which particularly troubled me at times very severe. Nothing I ever tried gave me any quick relief as Plant Juice. I have only taken it a short time and the pain has almost entirely disappeared. I feel sure that it will cure me, and I am glad to recommend it."

"People everywhere are being cured of rheumatism and kindred troubles by the use of Plant Juice. It is one of the most potent solvents of uric acid known. The eradication of this acid, a poison from the blood causes rheumatism to vanish as if by magic. All catarrhal conditions, indigestion, biliousness and derangements of the stomach, kidneys, liver and blood are relieved by the use of Plant Juice. Try it and be convinced. At Kelly & Pollards—Adv."

ALMOST LOST HER REASON

But Thanks to an Old Friend, This Terrible Catastrophe Was Averted.

Tampa, Fla.—Mrs. E. C. Coram, of No. 2905 Highland Ave., says: "I was very weak and worn out from womanly troubles. My husband bought me two bottles of Cardui to take as a tonic, and from the first day, it seemed to me I felt its good effects."

By the time I had used the two bottles, I felt and looked like a new woman. Some time later I got my feet wet at the wrong time, and I turned to Cardui to remedy the mischief done.

Before I had taken one bottle it gave me the needed relief.

Again, in later life, when passing over a critical time, I almost lost my reason, but thanks to three or four bottles of Cardui, I did not. That has been 15 years ago. I am now 59 years of age, and feeling fine.

I constantly praise Cardui to all my sick friends.

It is a wonderful remedy. This earnest letter, should take from your mind any doubt you might have as to the merits of Cardui, the woman's tonic. Mrs. Coram is certainly competent to recommend Cardui, since it helped her over three critical stages of life.

Don't neglect your troubles longer. Get a bottle of Cardui to-day.
